

INTRODUCTORY PACKET **SPONSORSHIP PROSPECTUS**

Nov'2020 - Feb'2020

What is Winter of Code?

Winter of Code is an open-source program envisioned by DevScript that helps understand the paradigm of Open Source contribution.

It aims to bring students into the world of open source development and see the power of unified problem-solving in real time.

This helps in developing your skills in real-world software development in a wide range of specializations.

What are the logistics?

The event will take place completely online from Nov'2020 - Feb'2021. DevScript targets to host approximately 300 students with varying amounts of experience in computer science.

Why sponsor Winter of Code?

The programme not only helps students to get involved in open source, but also prepares them for many open source programmes; Google Summer of Code being one of them. Your company will make an impactful first impression and consequently have a greater influence on the languages and tools that these coders learn. With this opportunity to reach out and advertise to young adults, representatives from your company will also be able to increase its leverage and consumer base.

WHERE WILL YOUR MONEY GO??

The money will contribute to operating expenses, swag, resources, prizes, and anything else needed to run Hack for the People. All contributions to Winter of Code will be tax deductible.

Perks for our Sponsors

BENEFITS COST(\$)	BRONZE 500	SILVER 1000	GOLD 1500	PLATINUM 2500
GENERAL				
Logo on Website	YES	YES	YES	YES

HOW CAN YOU HELP?

The resources provided by sponsors always leave a lasting impression on attendees.

You can help in any of the following ways:

- Send representatives to judge the projects.
- Host talks, or workshops about technical topics or inspiring insights.
- If you have any other ideas, questions, or concerns, please do not hesitate to contact us at: team@devscript.tech.
